Discussed YES NO		Voy Point
		Key Point
		Use descriptive commenting to build child's language and academic skills (colors, shapes, numbers, prepositions, objects, planets, countries, positions, categories) and to promote school readiness.
		Use persistence coaching to help children learn to keep working on a difficult or frustrating activity. Practiced describing the child as being "patient," "working hard," "concentrating," "trying again," to emphasize self-regulation and persistence with an activity.
		Use emotion coaching to help children learn feelings literacy. Practiced describing the child as being "calm", "proud", "happy", " kind" to emphasize emotional alternatives to anger.
		Use social coaching when children are sharing, waiting, trading, helping, using their words to ask for what they want, complimenting, and apologizing. Practiced modeling and prompting these behaviors as well as describing and encouraging them when they occur.
		Ignore minor misbehaviors and avoid use of commands, too many questions, corrections or criticism during play and special time interactions.
		Understanding how the "attention principle" and "modeling principle" work to encourage children's positive behaviors.
		Link parents' stated goals (1st home visit) with the play and coaching skills.
